

THE POSEIDON HMG RANGE OF RODS BY THE KINGFISHER

There was a need for a specialist Rock and Surf Rod to complement the Daiwa Saltiga and Saltist reels, so The Kingfisher dispatched a delegation, including an extremely competent and nationally respected angler to China to do some research, field testing and to source South Africa's best rock and surf range of rods. The range of ultra lite (that weighs a mere 330grams) to extra heavy (770 grams) the Poseidon HMG rods will set the benchmark for the ultimate Rock and Surf Rods. Developed over a two year period, we now have the best rock and surf rods about to touch down onto SA soil and ready for distribution country wide.

The heart of any great rod is the construction of the blank. Using only the finest HMG (high modulus graphite) available, The Kingfisher has produced the lightest and strongest HMG series of rods available. The range consists of an ultra lite in spinning and standard option, a lite, medium, medium – heavy, heavy and extra heavy in standard options to cater for any rock and surf anglers needs. These rods are not new, they may be new to the market but several tons of fish have been landed with them over some of the toughest angling areas in the country during development.

These three piece rods are designed to load from the tip for maximum power and fast acceleration. To increase casting distance only the best Pacific Bay guides are used, the frame is one piece stamped stainless steel for strength and the ring is a diamond polished Zirconia for durability. The reel seat is Fuji's top quality DPS winch.

The Poseidon HMG range of three piece rods come complete with a hardy cordura covered PVC rod tube with shoulder strap and a cloth bag.

POSEIDON HMG rod specs are as follows:

<u>ROD</u>	<u>LENGTH</u>	<u>CAST WEIGHT</u>	<u>WEIGHT OF ROD</u>
Ultra-lite Spinning 36T	11'6"	1-3oz	335 grams
Ultra-lite 36T	11'6"	1-3oz	375 grams
Lite 36T	13'6"	3-5oz	560 grams
Medium 36T	14'	5-7oz	720 grams
Medium-Heavy 30T	13' 7"	6-8oz	755 grams
Heavy 36T	13' 7"	6-9oz	865 grams
Extra Heavy 40T	14'	9-10oz	770 grams
